

This exploded perspective view illustrates the internal components of the portable electronic device. The components are labeled as follows:

- 114**: The top cover of the device, featuring a speaker grille (118) and a circular opening (120).
- 131**: A component, possibly a battery or a sensor, located near the top cover.
- 123**: A component, possibly a battery or a sensor, located near the top cover.
- 124**: A component, possibly a battery or a sensor, located near the top cover.
- 126**: A component, possibly a battery or a sensor, located near the top cover.
- 150**: A component, possibly a battery or a sensor, located near the top cover.
- 128**: A component, possibly a battery or a sensor, located near the top cover.
- 122**: A component, possibly a battery or a sensor, located near the top cover.
- 133**: A component, possibly a battery or a sensor, located near the top cover.
- 134**: A component, possibly a battery or a sensor, located near the top cover.
- 500**: The main body of the device, containing various electronic components.
- 112**: The bottom cover of the device, featuring a circular opening (120) and a rectangular opening (130).
- 130**: A component, possibly a battery or a sensor, located near the bottom cover.
